---

Enhancing the broadband landscape of Southeast Alaska through collaboration.

---

Provide the most broadband coverage to the most people, for the lowest cost.

---

Provide service to *everyone*, not just Tribal Citizens.

---

Tidal Network started in 2021 to defend 2.5Ghz.

---

Applied for NTIA TBCP and was awarded \$49.8 million in November 2022.

---

Plans for over 20 communities in Southeast Alaska.

## Tlingit & Haida's Tidal Network Progress

Sitka Tribe of Alaska - Wireless spectrum and RF design.

Kake Tribal - deliver Broadband services to their subscribers.

Pelican Community Coincul - Installed Starlink to serve Tribal citizen households.

Wrangell -Cell on Wheels, Tower leases and New tower sites.

Used to defend wireless spectrum.

Contributing to the development of a model for optimizing broadband expansion throughout SE Alaska.

Broadband to provide access to your services  
with infrastructure we are building with your  
services
